A.) Irrevocable or other Non-Grantor Trusts

An irrevocable or non-grantor trust may qualify for tax deferral under IRC Section 72(u) if the trust will be holding the contract "as an agent for" an individual. The trust's legal, or tax advisor, or professional (trust company) trustee for the trust must determine if the trust will be holding the contract "as an agent for" an individual. For The National Slovak Society of the USA (NSS Life) to characterize the annuity contract as tax deferred, the legal, tax advisor, or professional trustee for the trust must provide their contact information and sign the certification below.

I have reviewed the _____ (Name of Trust) and in my opinion the NSS Life annuity contract should receive tax deferral since the trust is acting as an agent for an individual under IRC Section 72(u).
